

DECORATIVE ICE CUBES

With Mother's Day just around the corner, I felt inspired by all the floral colors and Spring greens (<http://blog.mealsonheelsbymindy.com/?p=1781>) dressing every table at the Farmer's Market. Gazing upon gorgeous boxes of edible flowers such as organic orchids, nasturtiums, pansies and snapdragons, the idea to put a twist on my go-to couture fruit (<http://blog.mealsonheelsbymindy.com/?p=1865>) cubes was born.

This Sunday, shower your mom with flowers....INSIDE eye-candy ice cubes! These dazzling ices deliver beauty and whimsy to any brunch cocktail (<http://www.mealsonheelsbymindy.com/spirits-beverages/>) and white sangria (<http://blog.mealsonheelsbymindy.com/?p=85>).

CHEERS AND HAPPY MOTHER'S DAY

(<http://www.mealsonheelsbymindy.com/menus/seasonal/spring/mothers-day-brunch/#Muffins>) TO ALL THE MOMS OUT THERE.

FLORAL ICE CUBES

Make sure the flowers are pesticide and chemical free and clean before using.

To suspend flowers in the cubes, work in layers: Fill an ice tray that makes large cubes (to best showcase each flower) a quarter of the way with filtered water. Add flowers facing down, and freeze. Add more filtered water to fill halfway, and refreeze. Fill to the top, and freeze again.
