

# Owner of True North Recruiting acquires local search firm

08.01.2018 | posted by j lucas |    

Jay Lucas, President and owner of True North Recruiting, LLC, a full-service recruiting and executive search firm, has acquired Jordan Sitter & Associates headquartered in San Antonio, TX as of March 30, 2018. Jordan Sitter & Associates, founded in 1978 by Joe Jordan, is an executive search firm now operating in its 40<sup>th</sup> year. Jordan Sitter & Associates conducts exclusive and retained assignments for clients who manufacture, distribute and/or rent heavy equipment used in construction, mining, material handling, agriculture, and forestry.

*"I am excited and blessed to be able to take full ownership of this well-established and esteemed brand. God has a funny way of working things out in His time, and to be a part of the future of Jordan Sitter Associates after having been led by great people like Bill Sitter and Jerry Randecker is humbling," said True North Recruiting President & Owner Jay Lucas. "I am excited about bringing additional recruiting resources and expanded search capabilities to the many clients who have been loyal to Jordan Sitter over the years."*

Jay began his career in 1995 working for an international engineering and technical staffing firm. He spent most of his early years recruiting engineers in a variety of industries, including heavy equipment, which later led to positions in leadership with Allegis Group and ultimately self-employment. He has been operating True North Recruiting since 2004 and even shares some of the same clients as Jordan Sitter & Associates. True North specializes in providing talent in Supply Chain & Manufacturing Operations, Process Excellence (Lean/Six Sigma), Accounting, Information Technology, and Human Resources.

*"I'm delighted to retain the support of both Carol Randecker and Bill Sitter as board advisors while I focus on leading Jordan Sitter and True North into the future," said Lucas. "I believe our combined economies of scale, our application of technology, as well as our knowledge and experience will ensure lasting satisfaction for all our stakeholders."*
