Using Blogs

From the Menu module:

1. Select **Blogs > List Blogs**. The List Blogs page lists all of the available blogs.

   **TIP**
   
   You can configure which columns appear in this list by enabling (or disabling) specific items in the **Page Listing** area on the Blog control panel page.

2. You can click the column heading to resort the list, by that heading. For example, click the **Title** column once to sort the list by each blog’s title (in ascending order). Click it again to sort in descending order.

3. You can click on a blog title to view the blog.

4. If you have permission, use the **Actions** menu to select additional options:

   ![Actions Menu]

   - **View**: Read the blog
   - **Edit**: Edit the blog’s heading and settings
   - **Post**: Create a new blog post.
   - **Comments**: View the blog’s comments
   - **Permissions**: Assign custom permissions to the blog
   - **Delete**: Remove the blog and its posts.
