

## Industrial Stair Nosing

### Fibreglass reinforced plastic stair nosing with tough grit surface to reduce slipping

FRP Anti Slip stair nosing is pre-finished, ready to install safety products designed to prevent slip accidents in the most harsh and extreme conditions.

Manufactured from a composite fibreglass they are easily fitted over existing steps to create the toughest and most durable safety solution available.

Tested to comply with Australian Standards AS 4586-2013 – [read full report](#)

#### Why Fibreglass (FRP) is better

Produced in a one-step manufacturing process where a colour pigmented, fire retardant resin is interspersed with layers of immensely strong interwoven glass fibre. A

#### Product Features:

- Tested to comply with AS 4586-2013.
- Fiberglass Composite with integrated anti-slip grit in Yellow.
- Mechanically fixed or adhered installation.
- No steel or corrode or delaminate.
- Dimensionally stable in all temperatures.
- Highly resistant to chemical attack.
- Available in a wide range of sizes that can be cut to desired length.

diamond hard fused alumina anti-slip grain is forced under pressure into the base mix while it is still wet. A final resin layer laid over the top completes the entire composite mix before being oven cured until fully set.

FIX1172		Saddle Assembly - Stainless Steel

Description:	Industrial grade anti slip stair nosing.
Material:	Fibreglass composite with integrated anti-slip grit.
Finish:	Safety yellow.
Installation:	Mechanically fixed or adhered.
