

Dock-Safe Docking Bumpers

Product Features:

- Part of the unique Dock-Safe-Q Barrier system.
- Solid rubber construction with built-in compression feature.
- Protected and recessed fixing points.
- High quality rubber compound.

Dock-safe receiver blocks form part of our unique Dock-safe barrier system

When used in isolation the blocks robust construction make them ideal dock bumpers. Manufactured from high quality rubber, they incorporate recessed mounting points for M12 fixings (included) and have the ability to crush and rebound on impact.
