- Complies with AS/NZS 2890.1:2004

Suspended height restriction bar with hanger assemblies and chains

Our Group 1 height bars are available in a range of standard lengths from 2 metres all the way up to 8 metres. Each height bar is supplied with the necessary chain suspension kits and "LOW CLEARANCE" text and a number stickers kit.

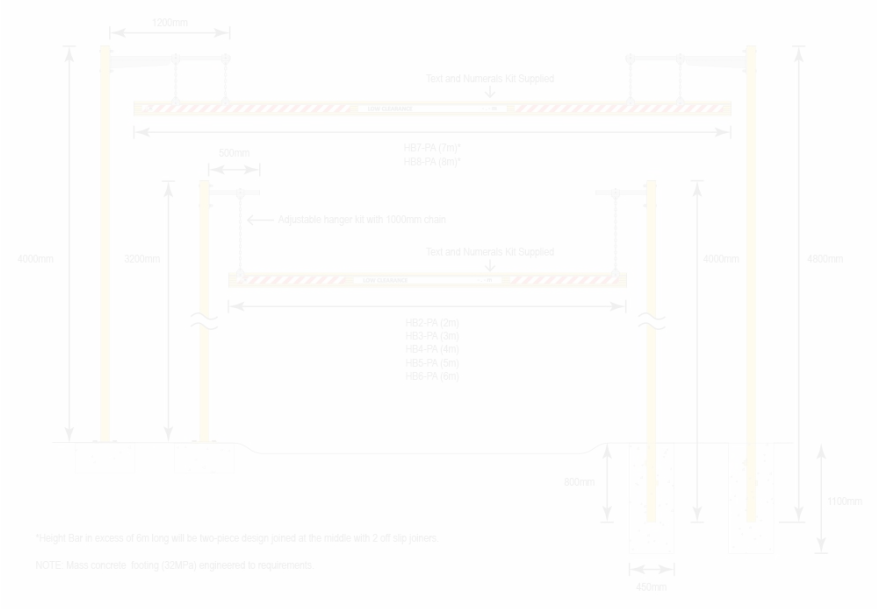

Use height bars at locations where vehicles first enter an undercover area or encounter an overhead obstruction, where the clearance in either case is: (i) 3 metres or less if only cars or light vans are likely to use the facility or (ii) 4.6 metres or less in all other areas.

For Fixing HBS500 or HBS1200 onto:

- Group 1 Height Bar Post – Use M12 x 130mm Bolts (supplied)
- Brick or Concrete wall – Use M12 Dyna Bolts or M12 Concrete Screws

Engineered Height Bars available upon request.

HB7-PA & HB8-PA must use HBS1200.
