

Galvanised U-Bars Heavy Duty Steel

Product Features:

- Heavy duty 5mm thick wall.
- Three standard lengths.
- Flexible modular design.
- All models are galvanised and powder coated or galvanised only.
- Surface mount and below ground models.
- Easy on site assembly with fixings supplied.

Modular design means these are adaptable to a wide range of uses

The heavy duty U-Bars are manufactured from heavy wall steel tube 90mm in diameter and hot dip galvanised. Powder coating in a colour of choice is optional. There are two styles, surface mount and below ground, with each style being available in three sizes for a total of six standard options. Surface mount models are fixed at 700mm above ground, while the height of below ground models can be regulated simply by embedding them more or less into their concrete footings.
