Creating a Wiki Page

Currently, your Tiki has a single wiki page (named **HomePage**). This page was created automatically when you used the Tiki installation program.

The initial, system-system created, **HomePage** page, as an Anonymous visitor.
This default page contains useful information and links for new sites. Your site's visitors (those with the necessary permissions) can create additional wiki pages. Since you are currently logged in as the **admin** you can also create new wiki pages.

There are multiple methods to create a new wiki page:

- Creating Pages from Links
- Using the List Wiki Pages page
- Using the Quick Edit Module
- Using the Quick Edit Module

**TIP**
You can watch a short video that demonstrates these methods.
